

1 **Remarks**

2
3 The application being filed herewith is a continuation (divisional) of co-pending
4 U.S. Patent Application Serial No. 10/265,998, filed October 07, 2002 ("the Parent
5 application"), which in turn claims priority to U.S. Provisional Patent Application No.
6 60/385,325, filed June 3, 2002.

7
8 **Amendments to the specification**

9 The specification filed herewith is to be amended as set forth above.
10 Specifically, a "Cross Reference to Related Applications" section has been added at
11 page 1 to assert the continuation status of the application, as set forth above.

12
13 **Election/Restriction**

14 In the Parent application a restriction was required under 35 U.S.C. § 121.
15 The Examiner had indicated that claims 1-19 were drawn toward Invention I, claims
16 20-29 were drawn toward Invention II, and claims 30-35 were drawn towards
17 Invention III. The Applicants elected claims 1-19 for prosecution in the Parent
18 application. The Applicant now wishes to pursue claims 20-29 in this Divisional
19 application, along with new claim 36 (which depends from claim 20). Claims 30-35
20 are hereby cancelled, without prejudice.

21
22 **New claim**

23 Support for new claim 36 is found in the specification filed herewith at page 25
24 line 15 through page 26 line 1.
